

The background image shows two women wearing white protective suits, engaged in painting a wall. The wall is already covered in vibrant, multi-colored graffiti. Two blank white rectangular panels are mounted on the wall, likely for the women to create their own artwork. The scene is brightly lit, and the overall atmosphere is creative and artistic. Large, abstract orange shapes are overlaid on the image, framing the central text and the bottom-left text.

FLUO SPINNING

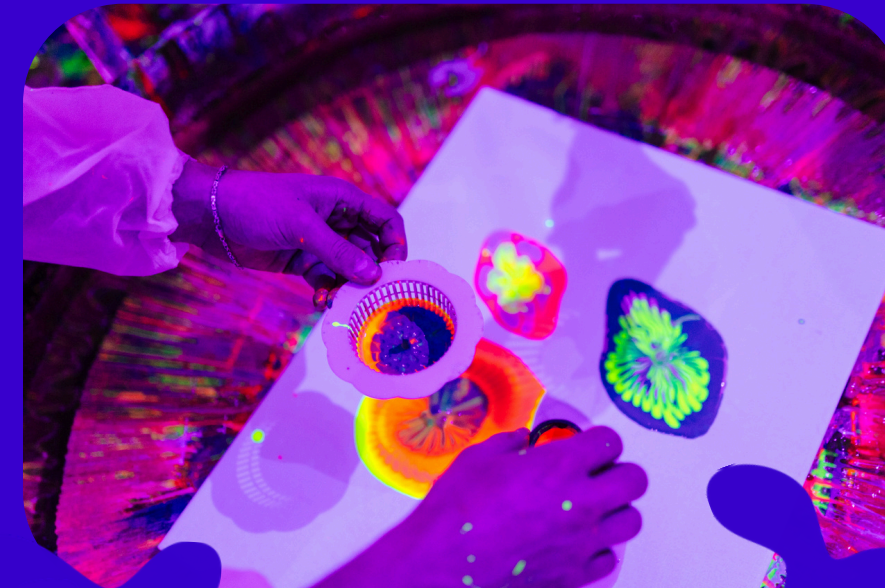

A striking method of creating abstract artworks!

The canvas is placed on a circular, electric rotating table.

Paint is applied by splashing it with a brush, pouring it through special templates, or letting it flow while the table spins.

The rotational movement causes the colors to radiate outward, blend together, and form one-of-a-kind patterns – every piece is unique!

POURING OPEN CUP

Create captivating, hypnotic patterns using acrylic paint, silicone, and a blowtorch!

Prepare the paint to the right consistency, pour it onto the canvas, and tilt it to form meandering, fluid designs.

Finish by heating the canvas with a blowtorch to open the paint cells and create the signature "bubbles."

Finished artworks can be collected after 14 days.

POURING ASSEMBLAGE

Assemblage is a technique that uses everyday objects in art – and are there any better everyday objects than cars?!

You can use your own 1:64 scale model or choose one from a selection available on site. Prepare acrylic paints to the right consistency and spread them across the canvas, creating patterns left by the car model as it moves. Finish by placing the car in its final position, completing your unique artwork.

Finished artworks can be collected after 14 days.
